

The Partners Group HR Benefits Technology Solutions

■ Your Partner at Work

The Partners Group (TPG) knows that your employees are your most valuable asset. For more than 35 years, TPG has partnered with employers to design, implement, and measure integrated employee benefit strategies that focus on providing the right solutions for a variety of industries.

■ Your Challenge - *One Size Does Not Fit All*

We understand that one size does not fit all. As an employer you are charged with finding the best solution for your specific population while factoring in demographics, industry, and location of employees. We know human resources and benefits technology is constantly evolving and that staying current in a changing market is difficult. Employers are challenged with efficiently and effectively managing the benefits they offer through employee education, enrollment, and administration. Hiring and retaining top talent can be difficult and costly; and while self service benefit technology systems are becoming readily available, they can be expensive.

■ Our Solutions

TPG Technology Solutions Include:

- Exclusive partner access and discounted fees to ADP system solutions
- Access to a consulting firm, Benefit Technology Resources (BTR), for assistance with selection, implementation, and ongoing administration of technology solutions
- Partnerlink, powered by Employee Navigator, TPG's technology product
- Access to other solutions through carriers or on a standalone basis including PlanSource, BSwift, Maxwell, Flock, and more!
- Subsidies to offset costs for technology platforms

■ Who We Are

We are driven by an unyielding dedication to your success. We are armed with the kind of expertise only 35+ years of experience can bring. We use our depth, breadth, and resources to enhance value, control costs, and take work off your plate instead of heaping it on.
