

# Group Personal Excess Liability Insurance from Chubb

## Required Primary Underlying Liability Insurance Policy Limits

Excess Liability insurance is a critical but often overlooked component of personal risk management. It provides additional protection that is designed to apply should the costs of a lawsuit or damages exceed the liability limits of your primary policies for home, automobile, watercraft, and recreational vehicles. For example, if you have a car accident, your primary auto insurance policy would be your first layer of coverage, and Group Personal Excess Liability Insurance from Chubb would be additional coverage after all other applicable policy limits are exhausted.

You and your family members must carry the minimum required underlying coverage limits summarized in the chart below. If you do not, you will have a gap in coverage since Group Personal Excess Liability Insurance from Chubb applies above the required underlying limits.

**Important:** Contact your current insurance carrier or agent to ensure that your personal insurance program has the required underlying limits.

**Please note:** If you carry limits under your personal policies that are higher than the minimums required under Group Personal Excess Liability Insurance from Chubb, you can either reduce your underlying limits to the required minimums, or you can continue to maintain the higher limits. If you choose to leave your underlying limits higher than the minimum amounts required, you will simply have more total coverage.
